The Gatsby Benchmarks set out a framework for schools to deliver ‘good career guidance’

<p>Gatsby Benchmark 1</p> <p>A Stable Careers Programme</p>	<ul style="list-style-type: none"> • Every school, special school and college should have an embedded programme of career education and guidance that is known and understood by pupils, parents, teachers and employers. • It should have the explicit backing of the senior management team and an appropriately trained person responsible for it • The careers programme should be published on the schools website so students, parents, teachers and employers can access it and understand it • The programme should be regularly evaluated with feedback from students, parents, teachers and employers as part of the evaluation process
<p>Gatsby Benchmark 2</p> <p>Learning from career and labour market information</p>	<ul style="list-style-type: none"> • Every student and their parents/ carers should have access to good quality information about future study options, labour market opportunities and the Local Offer. • They will need the support of an informed adviser to make the best use of available information. • Parents/carers should be encouraged to access and use information about labour markets, future study options and the local offer to inform their support to their children
<p>Gatsby Benchmark 3</p> <p>Addressing the needs of each learner</p>	<ul style="list-style-type: none"> • Students have different career guidance needs at different stages. Opportunities for advice and support need to be tailored to the needs of each student. A school’s careers programme should embed equality and diversity considerations throughout. • A school’s career programme should actively seek to challenge stereotypical thinking and raise aspirations
<p>Gatsby Benchmark 4</p> <p>Linking curriculum learning to careers</p>	<ul style="list-style-type: none"> • All teachers should link curriculum learning with careers. For example, STEM subject teachers should highlight the relevance of STEM subjects for a wide range of career pathways. • Linking curriculum learning to careers is also about teaching approaches that develop transferable career skills, such as organised thinking, meeting deadlines , persisting and being reliable
<p>Gatsby Benchmark 5</p> <p>Encounters with employers and employees</p>	<ul style="list-style-type: none"> • Every student should have multiple opportunities to learn from employers about work, employment and the skills that are valued in the workplace. This can be through a range of enrichment opportunities including visiting speakers, mentoring and enterprise schemes. • Meaningful encounters cover a range of activities with employers, both in and outside the school.

<p>Gatsby Benchmark 6</p> <p>Experiences of workplaces</p>	<ul style="list-style-type: none"> • Every student should have first-hand experiences of the workplace through work visits, work shadowing and/or work experience so they can explore their career opportunities and expand their networks. • Meaningful experiences of workplaces are interactions with the world of work in a real work location, and can be incredibly rewarding for everyone involved • Internal work experience can provide similar effects to external experiences and help them develop work related skills, confidence and self esteem
<p>Gatsby Benchmark 7</p> <p>Encounters with further and higher education</p>	<ul style="list-style-type: none"> • All students should understand the full range of learning opportunities that are available to them. This includes both academic and vocational routes and learning in schools, colleges, higher education and in the workplace. • Young people can learn about post compulsory schooling options in a range of ways including through direct interactions with colleges and 6th form provisions, both past and current students and alumni
<p>Gatsby Benchmark 8</p> <p>Personal Guidance</p>	<ul style="list-style-type: none"> • Students with SEND have access to continued guidance and support to help them explore opportunities and develop skills to make effective transitions • In special schools, young people with SEND have annual transition reviews from year 9. This is an opportunity to discuss their futures and put a system of support in place
